

Bicycle mechanic

Bicycle mechanics assemble and repair all types of bicycles: mountain bikes, city bikes, children's bikes and e-bikes. The professionals use special tools to check the functions of bicycles and carry out servicing. They also advise customers on the purchase of bicycles and accessories.

Requirements

- Manual dexterity
- Technical understanding
- Ability to visualize things spatially
- Precise, careful work
- Patience and perseverance
- Sense of responsibility
- Enjoy customer contact

<https://www.berufsberatung.ch/dyn/show/1900?id=8108>

Fahrradmechaniker:in

Automotive specialist

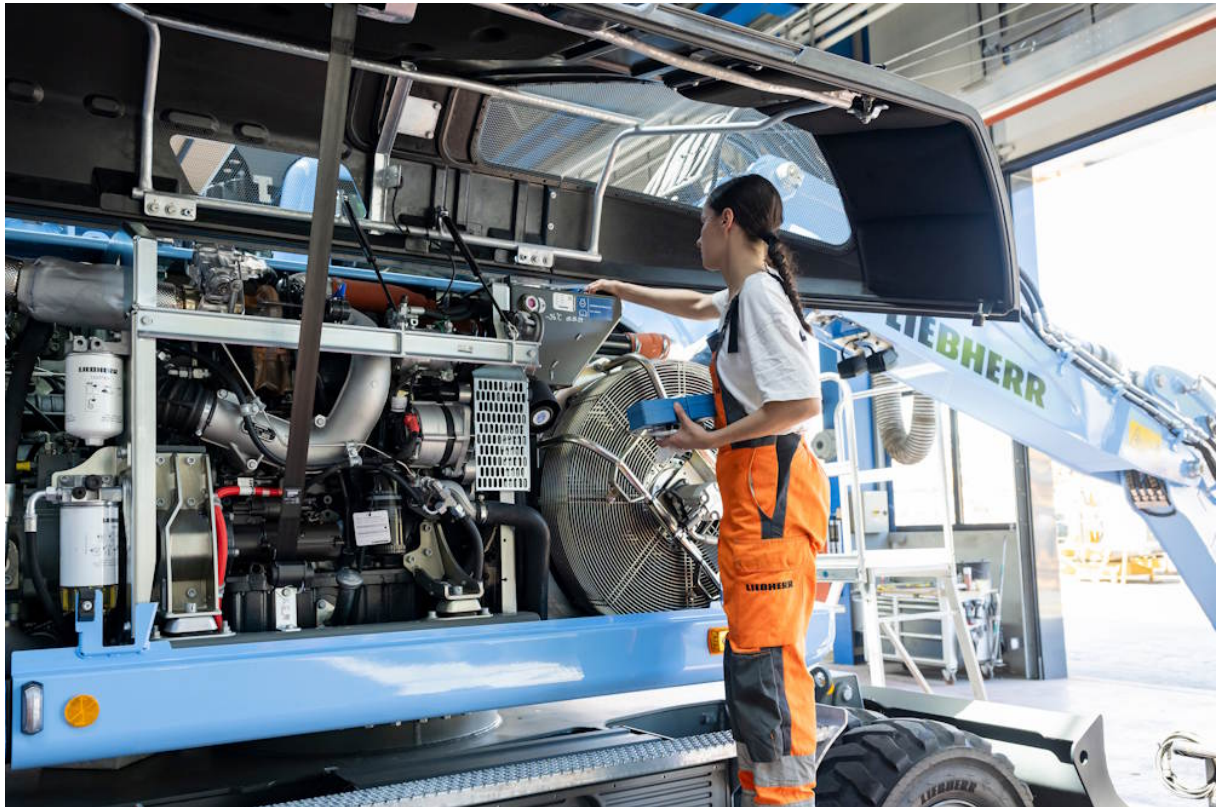

Automotive specialists inspect, maintain and repair cars or commercial vehicles, depending on their specialization. They replace damaged or worn mechanical, electrical or electronic parts. In this way, they ensure that the vehicle is in perfect working order and maximum safety.

Requirements

- High level of technical understanding
- Manual dexterity
- Logical thinking
- Exact and careful way of working
- Reliability and sense of responsibility
- Good manners (customer contact)

<https://www.berufsberatung.ch/dyn/show/1900?id=2970>

Automobil-Fachmann/-frau

Construction machinery mechanic

Construction machinery mechanics work in building construction and civil engineering. They build, maintain and repair vehicles, machines and equipment used to transport and lift materials. These can be, for example, road rollers, cranes, concrete mixers, excavators or tippers. These machines are often equipped with electrical, hydraulic or pneumatic systems.

Requirements

- Manual dexterity
- Technical understanding
- Good comprehension skills
- Independent working style
- Reliability and sense of responsibility
- Good physical condition
- Enjoy customer contact

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3035>

Baumaschinenmechaniker:in

Rofer

Roofers insulate and seal pitched roofs on new buildings and conversions to protect buildings from the weather. Depending on the shape of the roof and type of building, they lay clay tiles or sheets made of fiber cement, metal or natural slate. When choosing materials, they also take energy efficiency and aesthetic criteria into account.

Requirements

- No fear of heights
- Manual dexterity
- Spatial awareness
- Technical understanding
- Ability to work in a team
- Good physical condition
- Enjoys working outdoors
- Willingness to travel frequently

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=9947>

Dachdecker:in

Electrician

Electricians install, maintain and repair all electrical installations in buildings. Their work is varied: they lay cables, install switch boxes, connect electrical appliances and create telecommunications cable connections.

Requirements

- Manual dexterity
- Fine motor skills
- Abstract-logical thinking
- Strong technical understanding
- Careful, precise and responsible way of working
- No color vision impairment: must be able to distinguish cable colors
- Ability to work in a team
- Good manners, communication skills

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3062>

Elektroinstallateur:in

Specialist in operational maintenance

Specialists in operational maintenance maintain, check and clean buildings and their surroundings. They monitor building services, carry out repairs, maintain machinery, dispose of waste and perform administrative tasks. They also look after and maintain green spaces and sports facilities and take care of traffic routes and other infrastructure. The specific activities vary depending on the focus.

Requirements

- Manual dexterity
- Practical and technical understanding
- Reliability
- Physical resilience
- Organizational skills

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3047>

Fachmann/-frau Betriebsunterhalt

Forest warden

Forest wardens look after public and private forests. They fell and plant trees, maintain forest paths and erect protective structures against damage caused by animals or storms. They contribute to the utilization of wood, the diversity of tree species and the development of animal and plant habitats.

Requirements

- Enjoy working outdoors
- Good observation skills for natural processes
- Sense of responsibility and good judgment (accident risk)
- Independence
- Good health for physically strenuous work in wind and weather
- Technical understanding for working with machines and equipment

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3758>

Forstwart:in

Gardener

Gardeners look after plants and their habitats. They carry out different activities depending on their specialization. For example, they create and maintain gardens and green spaces, build squares and ponds or cultivate and sell plants such as trees, shrubs or flowers. The professionals are skilled craftsmen, know about plants and have an eye for aesthetics.

Requirements

- Enjoy working outdoors and in a team
- Interest in plants and biology
- Strength and agility
- Good powers of observation
- Good health (no pollen allergy, weather resistance)
- Technical understanding of working with machines
- Enjoy designing
- Patience and accuracy

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2946>

Gärtner:in

Geomatics technician

Geomatics technicians survey land, buildings and terrain. The professionals advise customers on legal and technical regulations and select the appropriate measuring method for the job. They ensure that surveying data is accurate and up-to-date. They also convert the measured data into plans, maps, geo-information systems and 3D models.

Requirements

- Good spatial awareness
- Logical thinking
- Quick perception
- Good powers of observation
- Disciplined, very precise and careful way of working
- Especially for the surveying specialization: enjoyment of outdoor work and weather resistance
- Especially for the geoinformation specialization: interest in IT

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3654>

Geomatiker:in

Heating installer

Heating installers install heating systems and other heating installations. They also work with renewable energies such as geothermal or solar energy. They work on construction sites or in the company's own workshops. Consultations, maintenance and repairs are also part of their tasks.

Requirements

- Manual dexterity
- Practical understanding
- Technical understanding
- Spatial awareness
- Physical agility
- Robust health
- Ability to work in a team

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2983>

Heizungsinstallateur:in

Woodworker

Woodworkers process wood into various products. They work either in timber construction companies, for example in carpentries, or in the timber industry, for example in sawmills. They help with the production or assembly of wooden components and are responsible for packaging and storing the products.

Requirements

- Manual dexterity
- Spatial awareness
- Technical understanding
- Strong teamwork skills
- Robust health
- Physical strength and agility

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=7964>

Holzbearbeiter:in

Carpenter

Carpenters construct and repair timber structures. They erect roof trusses, build wooden houses, barns, sports halls, bridges and facades. They construct stairs and doors, panel walls and ceilings, lay floors, install windows and insulate houses.

Requirements

- Manual dexterity
- Spatial awareness
- Technical understanding
- Good teamwork skills
- Robust health
- Physical strength and agility
- No fear of heights

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3018>
Zimmermann/Zimmerin

Farmer

Farmers cultivate the land, keep livestock and plant and harvest grain, vegetables and fruit. The agricultural products are either intended for direct consumption or for further processing and sale. The professionals look after the animals, protect the environment and maintain the landscape. The work follows the rhythm of the seasons. Some professionals opt for organic farming.

Requirements

- Interest in nature and plants
- Enjoy working with animals
- Understanding of interrelationships in nature
- Entrepreneurial thinking
- Practical manual aptitude
- Technical understanding, aptitude for working with machines
- Willingness to do dirty work and work at weekends
- Good health

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3878>

Landwirt:in

Metalworker

Metalworkers manufacture and assemble metal parts of buildings. These include facades, metal scaffolding, windows, doors, railings, stairs and fences. The professionals work on custom-made parts and assemble them on the construction site. They also repair damaged artistic metalwork.

Requirements

- Enjoy working with metal
- Technical understanding
- Manual dexterity
- Healthy, strong physical condition
- Mobility
- No allergies to metals
- Weatherproof
- Ability to work in a team

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2966>

Metallbauer:in

Polymechanic

Polymechanics manufacture tools, components and production systems. They manufacture these from various materials such as steel, chrome steel, aluminum and plastics or composites. They operate various machines, including computer-controlled machines, monitor production, commission and maintain systems.

Requirements

- Technical understanding
- Interest in technical contexts and mechanics
- Understanding of abstract contexts
- Ability to visualize things spatially
- Dexterous hands
- Accurate and careful way of working
- Ability to concentrate or patience and perseverance
- Ability to work in a team
- Reliability

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3656>

Polymechaniker:in

Plumber

Plumbers plan and install pipes for drinking water, wastewater and natural gas in new buildings and conversions. They connect sanitary appliances and fittings in kitchens, bathrooms and toilets. They are responsible for the professional and timely execution of their work. They carry out maintenance, servicing, repairs and renovations.

Requirements

- Manual dexterity
- Practical understanding
- Technical understanding
- Spatial awareness
- Physical agility
- Robust health
- Ability to work in a team

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2914>

Sanitärinstallateur:in

Carpenter

Carpenters make furniture and carry out interior finishing work. They manufacture and assemble construction elements, repair vehicles and equipment made of wood or build skins. They use tools or machines to process solid wood, wood-based materials, plastics and metals.

Requirements

- Manual dexterity
- Technical understanding
- Good spatial awareness
- Drawing skills
- Precise working methods
- Sense of aesthetics
- Good health (no hypersensitivity to dust and chemicals)

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2925>

Schreiner:in

Road builder

Road builders build and maintain roads, squares and paths. They lay road surfaces by hand or with machines. They remove old surfaces and stabilize the ground. They complete the roads and install crash barriers, gutters and grids.

Requirements

- Manual skills
- Practical understanding
- Reliability and stamina
- Ability to work in a team
- Weatherproof
- Physical strength
- Robust health

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2892>

Strassenbauer:in

Bricklayer

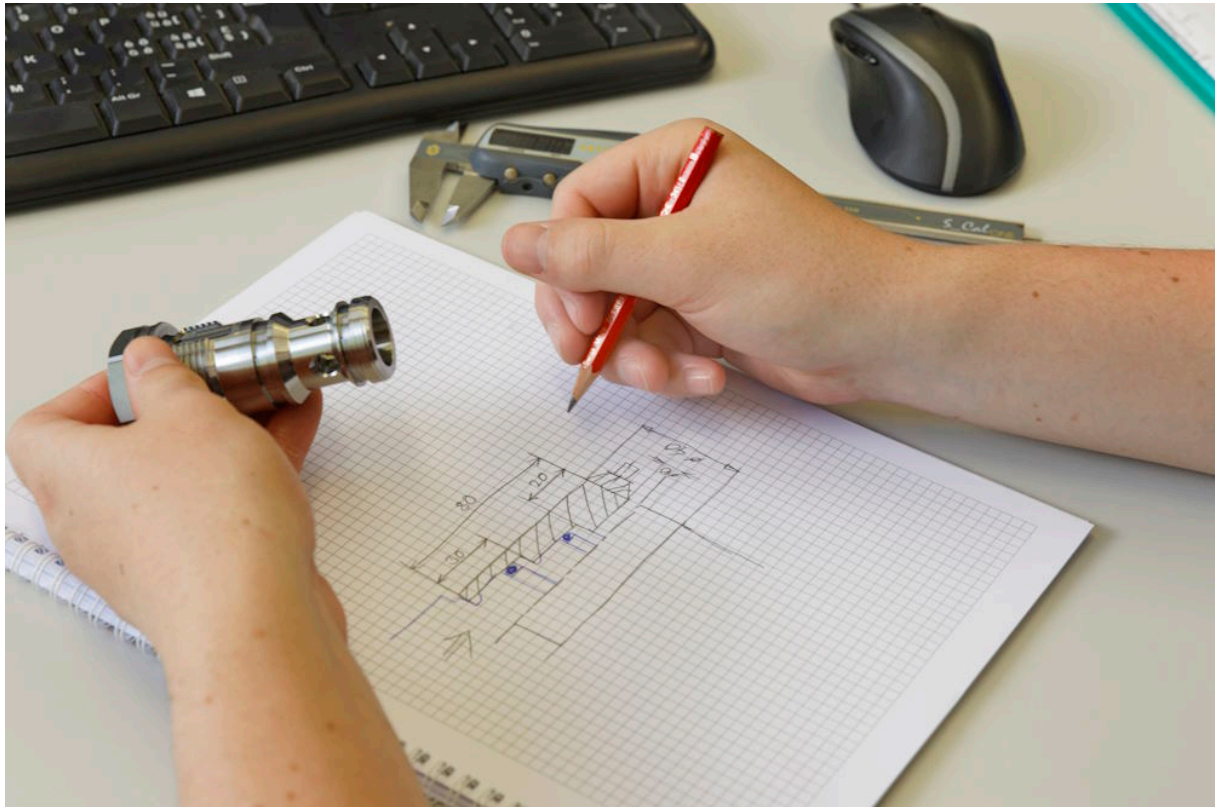

Bricklayers EFZ work on construction projects for private and public buildings. They excavate earth, fill it up, level the ground and build walls. They also lay pipes and cables and move prefabricated components.

Requirements

- Manual skills
- Practical understanding
- Spatial awareness
- Good health
- Physical agility and strength
- No fear of heights
- Weatherproof
- Ability to work in a team

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2931>

Maurer:in

Design engineer

Design engineers create technical drawings for clients. The drawings show parts of devices, mechanical systems or tools. They are responsible for precisely maintaining and calculating the size of the parts.

Requirements

- Interest in technical contexts and mechanics
- Understanding of abstract contexts
- Ability to visualize things spatially
- Skilled hands for precise work
- Patience, perseverance and ability to concentrate
- Enjoy computer work
- Ability to work in a team
- Organizational talent

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3699>

Konstrukteur:in

Automation technician

Automation technicians develop and build electrical control and automation systems, e.g. for industrial robots, vending machines or lifts. They also put the systems into operation, repair them and create technical documents. The professionals have a broad knowledge of electrical engineering, hydraulics and pneumatics.

Requirements

- Technical understanding
- Understanding of abstract contexts
- Ability to visualize things spatially
- Skilled hands for precise work
- Patience, perseverance and ability to concentrate
- Ability to work in a team
- Independence
- Reliability

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3794>

Automatiker:in

Tinsmith

Tinsmiths protect roofs and facades from the effects of weather such as rain, snow, hail, wind or sun. They manufacture components such as pipes or window frames and attach special cladding to the exterior walls of buildings. Their work also contributes to the energy efficiency of buildings.

Requirements

- Manual skills
- Practical understanding
- Spatial awareness
- Physical agility
- Robust health
- No fear of heights
- Patience and stamina
- Ability to work in a team and collegiality

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2911>

Spengler:in

Plant and apparatus engineer

Plant and apparatus engineers manufacture apparatus, machines and systems. They manufacture individual parts from metal and assemble them into components and assemblies. They put the systems into operation and maintain them.

Requirements

- Manual dexterity
- Practical understanding
- Spatial awareness
- Technical understanding
- No allergies to metals, fats and oils
- Ability to work in a team

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3055>

Anlagen- und Apparatebauer:in

Plant operator

Plant operators operate automated industrial plants. They support the production of food, medicines, electronic components or plastics. The professionals set up the machines and ensure that they function properly. They intervene in series production when problems arise.

Requirements

- Technical understanding: Basic understanding of technical devices and mechanical processes
- Manual dexterity and practical skills
- Accurate and careful way of working
- Ability to concentrate
- Reliability and sense of responsibility
- Organizational talent
- Ability to work in a team
- Ability to work under pressure and willingness to work irregular hours (shift work)

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=7670>

Anlagenführer:in

Floor parquet layer

Floor parquet layers lay floor coverings made of wood, laminate, linoleum, plastic, rubber and cork as well as carpets. They install substructures and carry out repairs and surface treatments.

Requirements

- manual dexterity
- spatial awareness
- strong constitution
- robust health
- agility
- aesthetic sensibility

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3635>

Boden-Parkettleger:in

Stove builder

Stove builders build and design wood-burning heating systems such as tiled stoves, stoves or fireplace stoves. They are also responsible for maintenance and repairs. They also renovate and restore old wood-burning heating systems, for example to make them more energy-efficient or to adapt them to the wishes of customers.

Requirements

- Manual dexterity
- Healthy, strong constitution
- Spatial awareness
- Sense for shapes and colors
- Sense for constructive connections
- Reliability and stamina

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2909>

Ofenbauer:in

Logistician

Logisticians receive all types of goods, check them and prepare them for storage or delivery to customers. For example, they work with raw materials, industrial products, medicines, letters, parcels or foodstuffs. Depending on their specialization, they plan, organize and carry out tasks in the areas of distribution or warehousing.

Requirements

- Practical understanding
- Manual dexterity
- Organizational talent
- Reliability and sense of responsibility
- Independence
- Stamina and ability to concentrate
- Sociability
- Service consciousness

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3804>

Logistiker:in

Painter

Painters sand and smooth surfaces. They mix colors and apply them using various techniques, for example by painting, spraying or wallpapering. In this way, they protect buildings from the effects of the weather.

Requirements

- Manual dexterity
- Practical understanding
- Physical agility
- Robust health
- Sense for colors
- No allergies to solvents

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2988>

Maler:in

Power tool mechanic

Power tool mechanics maintain and repair vehicles, machines and equipment that are used to maintain parks and gardens, clear snow, clean roads or for agricultural work. These include motor hoes, lawn mowers, hedge trimmers, snow blowers, embankment mowers and road sweepers. The professionals also advise customers.

Requirements

- Manual dexterity
- Technical understanding
- Good comprehension skills
- Independent working style
- Reliability and sense of responsibility
- Good physical condition
- Physical agility
- Enjoy customer contact

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3146>

Motorgerätemechaniker:in

Tiler

These professionals cut and lay tiles made of ceramic, natural or artificial stone. They use them to protect and beautify floors, walls and stairs. They carry out this work in buildings that are under construction or renovation. These can be shopping centers, restaurants, hospitals, factories or sports centers, for example.

Requirements

- manual dexterity
- spatial imagination
- flair for geometric shapes
- robust health
- strong constitution
- physical agility
- precise way of working
- sense of shapes and colors

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2929>

Plattenleger:in

Stonemason

Stonemasons build and repair roads, paths and squares made of natural stone. They lay paving stones and natural stone slabs. They ensure that old buildings are solid and look good.

Requirements

- manual dexterity
- practical understanding
- careful and precise working methods
- ability to work in a team
- physical resilience
- robust health

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=7488>

Steinsetzer:in

Car body painter

Car body painters paint vehicle surfaces. They embellish, protect, renew and label vehicles. The professionals prepare the surfaces to be painted, mix the colors and apply the paint.

Requirements

- Sense for design, for colors and shapes
- Skilled hands for precise work
- Reliability
- Ability to work in a team
- Good health (no allergies to chemicals, no asthma)
- No color vision disorder

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3027>

Carosserielackierer:in

Cutler

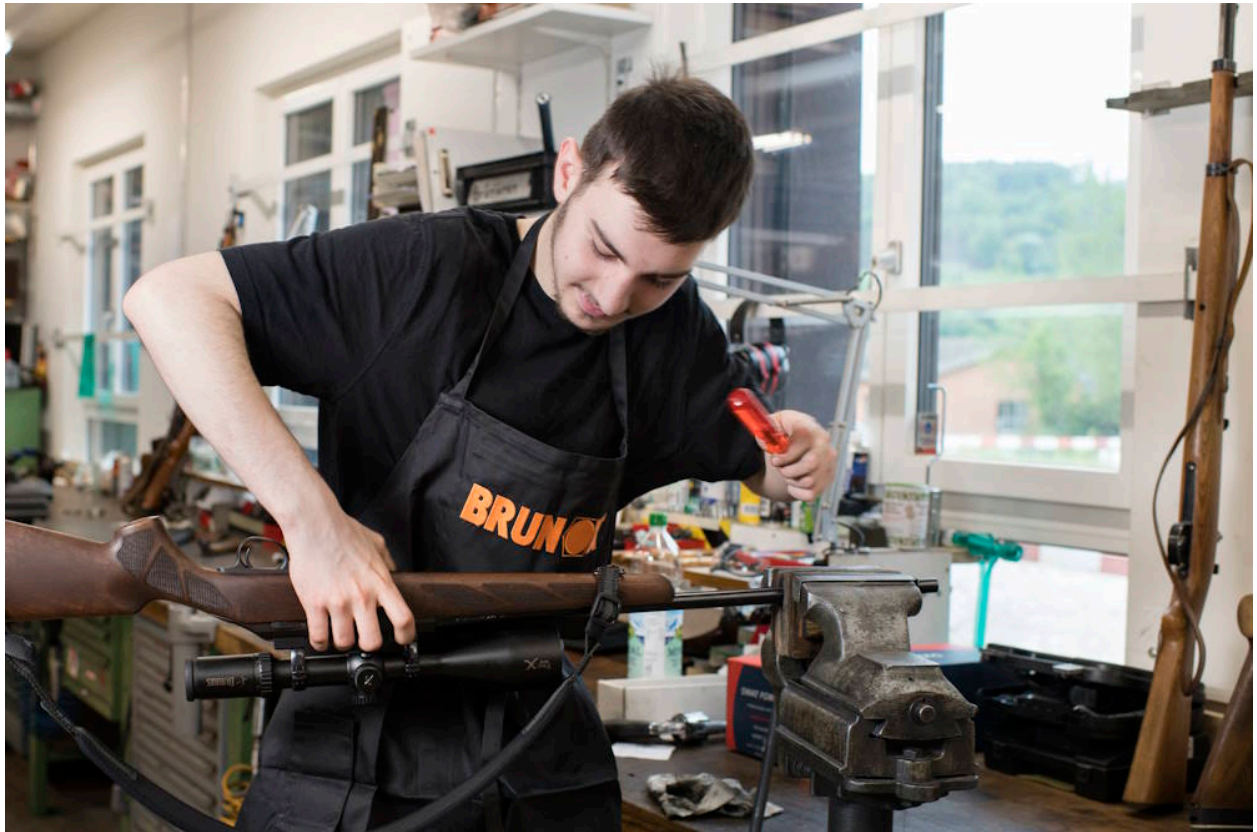

Cutlers manufacture, sharpen and repair cutting tools such as knives, scissors and instruments for industry, trade, household and leisure. They work by hand, but also with computer-controlled machines. In the store, they advise customers and sell their products.

Requirements

- Enjoy metalworking
- Healthy, strong constitution
- Manual dexterity
- Precise working methods
- Stamina
- No allergies to metals, oils and solvents

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2959>

Messerschmied:in

Gunsmith

Gunsmiths manufacture, repair, adjust, maintain and sell firearms. Nowadays, they mainly run businesses that deal with the sale and repair of various types of rifles and pistols. Their customers are hunters, competitive sportswomen, club shooters and collectors.

Requirements

- Manual dexterity
- Spatial awareness
- Technical understanding
- Precise working methods
- Safe, steady hands
- High sense of responsibility

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3657>

Büchsenmacher:in

Silversmith

Silversmiths produce bowls, plates, jugs, cups, cutlery and jewelry from silver. They advise customers on repairs, prepare quotations and carry out simple administrative tasks.

Requirements

- Manual dexterity
- Fine motor skills
- Technical understanding
- Creative flair
- Three-dimensional imagination
- Sense of beauty
- Patience, diligence, perseverance
- Creativity

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=11572>

Silberschmied:in

Farrier

Farriers shoe the hooves of horses, ponies, mules and donkeys. They check the condition of the hooves, detect possible diseases or malpositions and trim the hoof horn. They also forge and shape the horseshoes and attach them.

Requirements

- Enjoy working with metal and horses
- Enjoy customer contact
- Manual dexterity
- Practical understanding
- Good physical condition and weather resistance
- Physical strength and agility
- Empathy
- Sense of responsibility

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=4017>

Hufschmied:in

Hairdresser

Hairdressers advise customers on hairstyles, haircuts, coloring and highlights. They create new hairstyles according to fashion trends and customer wishes. The professionals assess what suits the person and take into account, for example, the face shape or hair type. They also recommend and sell products and accessories.

Requirements

- Skilled hands, dexterity
- Interest in beauty and fashion
- Sense for colors and shapes
- Sense for cleanliness and hygiene
- Enjoyment of contact with people
- Very good communication skills
- Healthy back, feet and legs for working standing up
- No allergies or hypersensitivity of the skin (handling chemical products, shampoos and care products)

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3037>

Frisör:in

Apparel designer

Apparel designers make and fit items of clothing or hats. The products are made of fabric, fur or leather. They cut, sew and iron women's and men's clothing, workwear or headwear. They make individual items to measure or for collections, advise customers on the choice of materials and take fashion trends into account.

Requirements

- Fashion flair
- Interest in materials and a good feel for materials
- Sense for shapes and colors
- Enjoy drawing/design
- Good imagination and sense of proportion
- Skilled hands
- Precise work
- Stamina

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2939>

Bekleidungsgestalter:in

Interior decorator

Interior decorators design the interiors of buildings such as homes, hotels, restaurants and banks. They install curtain systems, restore furniture, lay carpets, connect lamps and carry out other decorative work. In this way, they embellish rooms and give them a personal touch. They also maintain contact with customers and carry out administrative work.

Requirements

- Manual skills
- Technical understanding
- Spatial awareness
- Aesthetic sense
- Understanding of stylish, high-quality and decorative materials
- Precise working methods
- Independence and personal responsibility
- Ability to work in a team

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2926>

Raumausstatter:in

Waterproofer

Waterproofer insulate and seal flat roofs, canopies, terraces and cellars. They apply cladding to new or renovated buildings. They also repair and maintain damaged waterproofing.

Requirements

- No fear of heights
- Manual dexterity
- Practical understanding
- Technical understanding
- Spatial awareness
- Good physical condition
- Ability to work in a team
- Enjoy working outdoors

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=9946>

Abdichter:in

Cleaning technology specialist

Cleaning technology specialists clean offices, apartments, schools, hospitals and other buildings. They also clean means of transportation such as buses, trains or ships as well as furniture and equipment. They also protect floors and walls, for example by waxing, impregnating or oiling them.

Requirements

- Practical understanding
- Robust health
- Good constitution and physical agility
- No allergies (to cleaning products)
- A head for heights
- Ability to work in a team and good manners

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=2997>
Fachmann/-frau Reinigungstechnik

Specialist in sun protection and blind technology

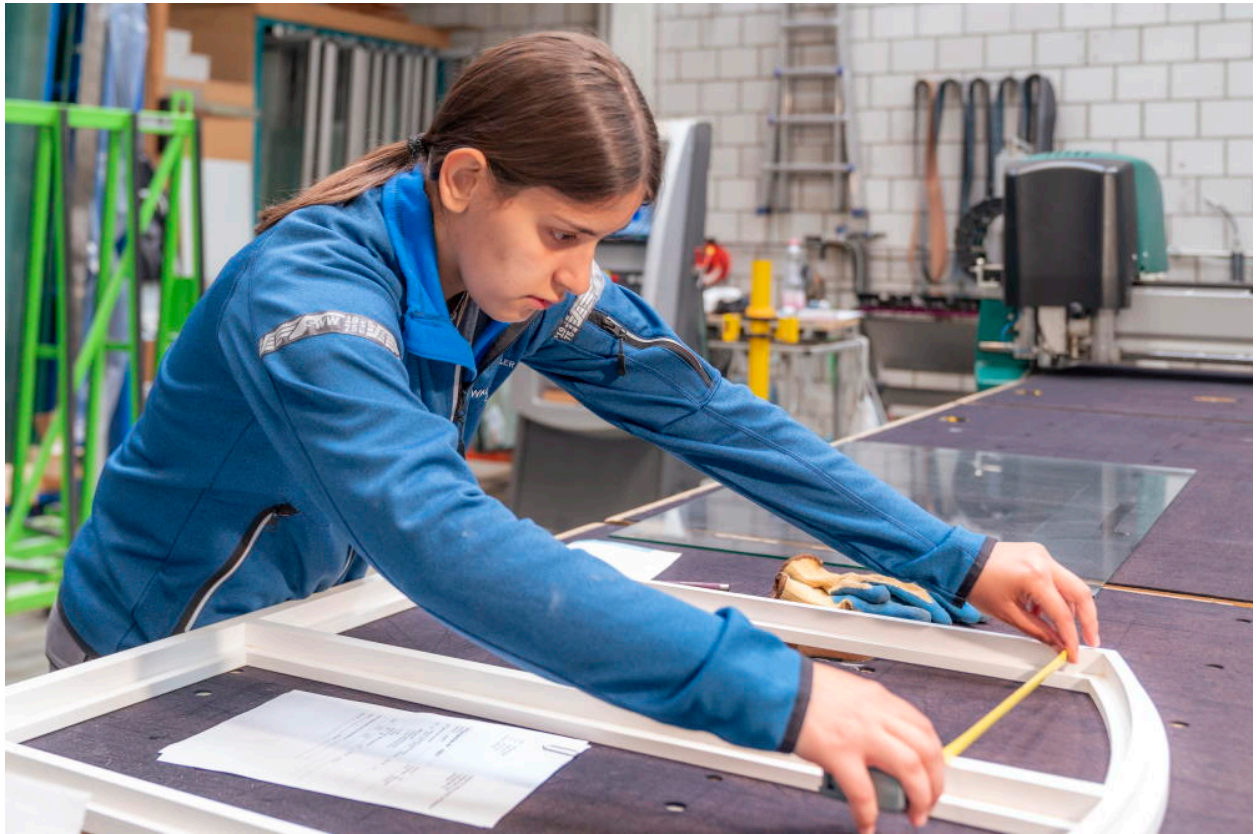

Specialists in sun protection and blind technology install, maintain and repair all types of blinds, for example roller shutters, slat blinds or sun blinds. In new buildings and renovations, they install and commission blind systems that are controlled manually or automatically.

Requirements

- Manual dexterity
- Technical understanding
- Ability to work in a team
- Practical understanding
- Spatial awareness
- Healthy, strong constitution
- Agility
- No fear of heights

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=9950>

Fachmann/-frau Sonnenschutz und Storentechnik

Glazier

Glaziers process, install and repair glass elements in and on buildings: for example windows, facades, glass doors, roof glazing, showers, shop windows and verandas. They process various types of glass and install interior fittings such as sliding doors, mirror walls, glass doors and aquariums.

Requirements

- Manual dexterity
- Practical understanding
- Technical interest
- Spatial awareness
- Physical resilience
- Ability to work in a team

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=3117>

Glaser:in

Ceramist

Ceramists are responsible for the production of ceramic objects from the design of the form to the marketing of the product. They use various techniques for shaping, decorating, glazing and firing the objects. They produce everyday objects such as cups, plates and vases or decorative objects such as sculptures and mosaics individually or in series.

Requirements

- Strong sense of form and color
- Fine motor skills
- Creativity
- Spatial imagination
- Patience and perseverance
- Independent way of working
- Business acumen
- Sociability

<https://www.berufsberatung.ch/dyn/show/1900?lang=de&idx=30&id=4026>

Keramiker:in
